Operating Instructions

Connect the Comsol 7 port USB charging station to a power socket using the provided AC power cable.

The USB-C PD (Power Delivery) port can provide up to 18W of power to fast charge an iPad Pro (with USB-C charging port) or an iPhone 8 or later from 0 to 50% in 30 minutes*.

The three USB-A ports labelled 1.8A will supply up to 1.8A (9W) for fast charging of tablets and larger phones.

The three USB-A ports labelled 1.0A are for charging phones and other USB devices.

You can charge an iPad or tablet in the three USB-A ports labelled 1.0A but they will charge at a slower rate.

3

Caution

- Do not apply external force on any connected cable
- Do not unplug by pulling the cable
- Do not place the power cable or device near heating elements
- Do not bend the pins of the power cable
- If there are any strange sounds, smoke or odour, disconnect the power cable immediately
- Do not disassemble (it may cause fire or electric shock)
- Do not put any sharp objects into the venting holes of the product (it may cause fire or electric shock)
- Ensure to plug the cable firmly into the socket
- Do not use any cable that is damaged (it may cause fire or electric shock)
- Do not operate the product on a bed, sofa or inside a closed space that has no ventilation
- If dirty, wipe the product with a soft dry cloth (do not use water as it may cause electric shock)
- Keep the power plug clean (dirt may cause a short circuit or fire)
- Keep the product out of reach of small children
- Don't unplug the power cable with wet hands (it may cause electric shock)
- If you do not intend to use the product for an extended period of time, unplug the power cable from the wall socket to avoid any chance of over heating or unwanted damage
